Visit to Medi Skills Lab (Dr. Péter Maróti)

Place: Faculty of Medicine 7624 Pécs, Szigeti út 12.

The Medi Skills Lab - Simulation Education Center project started in 2012 thanks to the support from the University of Pécs by "Education Development Fund" and the support of the Student Government.

The main task of the Laboratory is development of manual skills for graduate and postgraduate medical students and doctors. During the course of our operation, we are obliged to hold compulsory, elective, facultative courses as well as implementation of training needs by external partners.

Our tools - which include HI-FI, high fidelity simulators, 3D-technology equipment, and innovative demonstration tools – are outstanding by Hungarian and international standards. Our IT and Audiovisual systems are using "Smart" solutions which were developed within the framework of a unique development, they greatly facilitate the implementation of interdisciplinary, complex simulations.

18.00 – Dinner (Pezsgőház Restaurant)
